

Fractions

$$\frac{1}{2} + \frac{1}{3} = ?$$

When we divide one (1) to six (6) Parts,

We can find the number.

*	*
*	*
$\frac{1}{6}$	*

$$6. \frac{1}{6} = \frac{6}{6} = 1$$

$$\frac{1}{2} = \frac{?}{6}$$

$$\frac{1}{2} = \frac{3}{6}$$

$$\frac{1}{3} = \frac{?}{6}$$

$$\frac{1}{3} = \frac{2}{6}$$

$$\frac{1}{2} + \frac{1}{3} = \frac{3}{6} + \frac{2}{6} = \frac{5}{6}$$
